DISTRICT ANNOUNCES CHANGES TO WEBSITE
www.deerfield.k12.wi.us

Over the past five months, the Deerfield School Board's ad hoc Communications Committee has been exploring opportunities to improve district communications to students, staff, parents and the community. One of the areas of focus has been increasing community use of the district website to obtain information and current school news. Through the communications discussions many changes and additions have been made which will provide greater information to the viewer.

Please take a moment to visit the "remodeled" district website at www.deerfield.k12.wi.us to see:

- A district online calendar listing events in both buildings. Calendars can be viewed and printed with all events or by building level.
- Fewer point and click menu choices on homepage with white markers highlighting the subsequent menu trees.
- The "Voice" middle/high school newsletter posted every Friday afternoon under the Middle School and High School menus. A great resource for school news announcements.
- School Board committee pages listed individually with posted agendas and meeting minutes.

"As we continue to put more information online, we are encouraging citizens to visit the website as an easy access point for information," stated District Administrator Michelle Jensen. "I think the community will be pleased with the changes which are a positive step to improving district communications."
