

OFFICIAL NOTICE

The Deerfield Board of Education Transportation Committee will meet in open session on Friday, April 23, at 9:00am in the Deerfield Elementary library conference room, 340 West Quarry Street, Deerfield, WI. A majority of the Board Members may be present at the Transportation Committee Meeting.

AGENDA

1. Review previous meeting topics

Sky Terrace – designated as a hazardous roadway

2. Discuss scenarios pros/cons

Transportation Policy Change Options

- a. Keep the policy as is – Students K-12 will receive bus transportation if they live outside of the village limits.

Pros	Cons
No Change System works Similar costs from year to year Safety – Facilitate walking groups,	Safety concerns of younger village students

position of crossing guards	
-----------------------------	--

- b. Change the policy so the language reads a mile radius from school and beyond would be eligible for bus transportation (Sky Terrace included as hazardous area).

Pros	Cons
More Equitable	Cost – could add ½ a route

- c. Change the policy so the language reads a mile radius from school and beyond would be eligible for bus pick up and add a village route for students in K-6, current proposal would be for .7 or more (discussion to decide mini-double routes or an extra bus)

Pros	Cons
Safety, more younger students being bussed	Difficult to determine costs from year to year, stops may change

Group is very concerned with the repercussions of changes made for future school years (logistics, finances, safety). Safety is a priority, as well as preserving bus service for those who already have it. The group has really come down to keeping service the same versus some variation of a 1 mile designation.

Dave is bringing in numbers for K-6 1 mile, village limits for everyone policy.

3. Set next meeting time

Next meeting is May 7, 2010.
