Future Action: All use it consistently.

4. Graduation Requirements (345.6):

Portfolio requirements referenced in policy not specified. Specifies will go to administrative rules.

Looked at other district's policy. Waunakee's policy states that MS students enrolled in HS classes are not counted. Discussed pros and cons of this position. Not sure if this is best for us. Currently Algebra I can be taken in 8<sup>th</sup> grade and counts partially.

Both Waunakee and Belleville had language regarding the retaking of classes. We do not have language for this.

Determination of credit and graduation requirements.

Should we think about how we offer credits. For one credit courses, for example, can a student get .5 credit?
