

Policy Committee Meeting
May 3, 2010
5:00 PM

Members Present: Chris Page, Shelley Mack, Michelle Jensen

Agenda Items:

1. Discussion of Graduation Requirements (Policy 345.6) language:

Recognizing that much of our discussion has moved into administrative rules and out of policy per se...but we probably need the conversation even though much of it won't be in the policy statement itself.

Continued discussion of new language regarding prior approval.

Made a revision to language regarding youth options/youth apprenticeship.

Use of "independents"

- when to take them (Jr./Sr. only?)
- why take them, scheduling conflicts, challenge, help at risk
- how many can be taken

Future Action: Will develop language to bring in next time, including work experience, summer school, etc.

2. Discussed number of credits that can be transferred in:

Should there be a limit?

Should a number of credits be required to be taken here

Future Action: Will check with staff, like to not specify any limit

3. Revise language regarding other requirements beyond credits:

Which if any, belong in requirements; WKCE, 2.0 or better.

This is a philosophy question.
